

..New York.. Stock Market

RESULTS MIXED AT CLOSE
OF DAY'S STOCK MARKET

Wall Street Wants Heat to Wither
Investigations That Threaten
Trunk Lines.

FIGURE IMPULSE IS NEEDED

Holiday in London and on Continent on
Monday Means Handicapping Opening for
Next Week.

BY BROADAN WALL.
New York, May 29.—Results were mixed at the close of today's market. Ratis were heavy. New Haven, New York Central and Baltimore and Ohio again dropped out of the lead that further price-making would disconcert stockholders and bring a renewal of liquidation.

Wall Street dislikes heat, but it would withdraw if not specified that would come from investigations that threaten every trunk line in the country.

Stock market was heavy at the opening. This time the selling came from the market where the railroad situation had to have taken a short position on the stock as a hedge against heavy purchases of cotton. This stock came up by 100 shares and amounted to about 5,000 shares. The market was released from the price strengthening, and the close was firm at 63. A recent advance of 3-8 of 1 per cent in raw sugar and 1-1/2 in American Beet Sugar and the price rise from 23-1/2 to 25-1/2 American Sugar was firm in sympathy, gaining a point.

International Motors was easier. International Steel was steady. The market fell the low figure of 16, and a racehorse is considered merely a matter of months. Montana Power was active at 10-1/2 a point. A bill passed the Senate to distribute among the government to lease oil lands. This should be helpful to Southern Pacific. Texas Company stocks were active with a 12-1/2 point advance. Some government contracts have been signed regarding this company for some time. Union Pacific steamed on announcement that the question of the control of the Great and Grand Island would be taken by the company to the higher courts.

The disaster to Imperial Pacific steamer brought a Canadian Pacific steamer to the dock to help.

Missouri Pacific sold at 19. It is now believed that with some \$26,000,000 of notes assenting to the plan of extension, banking syndicate will have no difficulty on the balance. Such an announcement is expected by Monday.

The crops were strong on the curb and Missouri Pacific bonds all day displayed strength. Denver and Rio Grande refunding to were higher and Virginia Refining Co. rose from 62 to 67. International Steam Pump Co. were unchanged.

Negotiations for the sale of \$20,000,000 St. Paul General Mortgage 4s were in progress. Upon news from the West was again reported to be favorable.

The government cotton report on Monday will not make a cheerful showing.

Shipping exchange declined further and is now well under the high figure of last Tuesday. The weekly bank statement was published at 3 o'clock, showing a reserve decrease of \$1,600,000. In view of dry weather in New York this week were heavier than of late, the total rising to \$23,100,000 compared with \$20,000,000 last week and \$16,700,000 last year.

Annual earnings of the Erie system made a good showing with a gross increase of \$125,000 and net of \$75,000. Total net earnings lost \$100,000 gross and \$100,000 net.

With all stock markets closed tomorrow and on Continent Monday, next week will open with a high market. Traders have any speculative position open, and most of them are waiting for a fresh impulse to move the market.

New York, May 29.—On a diminishing volume of operations, today's stock market moved in the same narrow groove which characterized the previous week. An unusual week-long initiative was had by the approaching holiday. Trading was slow, but the market was steady with the exception of New Haven, which was weak. Weakness, Missouri Pacific issues were weak, but unusual interest became of the approach of the \$2.9000 rate issue. In connection with these securities, United States registered 6 gained 14 per cent on call for the week.

New York, May 29.—Call money rates stood, ruling rate 15, closing 15-1/2. Time loans, twenty and ninety days, also ruling exchange steady; sixty days, also demand, 12-1/2. Commercial bills, 12-1/2. Gold, 12-1/2. Mexican dollars, 44. Investment bonds steady. Railroads steady.

RICHMOND STOCK MARKET.
